# DAVID VOICU

## SOFTWARE ENGINEER

✉ david@voicu.me     📞 (613) 791-1087     🔗 voicu.me     🖥 VokusX     in DavidVoicu

## EXPERIENCE & PROJECTS

### voicu.me
📅 December 2017 - Present
**Personal Website**

- Used a combination of HTML, CSS, and JS along with frameworks such as Node to create a website portfolio hosted on AWS.
- Focused on making an aesthetically pleasing, yet intuitive design for the user, while being optimized and lightweight.

### SwiftWeather
📅 August 2017 - Present
**Personal Project**

- Designed and programmed a weather app in Swift3 to use various APIs to get info.
- OpenWeatherMap API and Apple's Core APIs for user location were both used
- Focus on efficient and optimized code for the best user experience

### To the Stars: Mobile Game
📅 October 2016 - June 2017
**Personal Project**

- Designed, developed and maintained an Android Game using Unity/C# and Python.
- Strong emphasis on full stack development through programming and design.
- Wrote optimized code to ensure the game would run fast and smooth on a range of devices.

## SKILLS

**Programming languages**

Python   Java   JavaScript   C++   Swift   HTML/CSS

**Platforms**

OS X   Windows   Linux

**Other skills**

CLI   Node   XCode

## LANGUAGES

**English**   ●●●●●

**Romanian**   ●●●●○

**French**   ●●●○○

**Japanese**   ●●○○○

## EDUCATION

### Carleton University

**Bachelor of Computer Science Specialization in Software Engineering**

📅 September 2017 - Present

12.0 cGPA

### Colonel By Secondary School

**Honours, Silver Medal, Ontario Scholar**

📅 September 2013 - June 2017

94.5% Final Average
